SHIVEN UPADHYAY

Nevish-302 | nevish302 | Portfolio | shiven302@gmail.com | +91 8800303359

Skills

Backend:	Node.js, Express, GraphQL, Laravel, Flask, REST APIs, Microservices
Frontend:	React, Flutter, Tailwind, Bootstrap, HTML, CSS/SCSS
Data & Infra:	MySQL, MongoDB, Redis, BigQuery, Firebase, RabbitMQ, Docker, Sockets, MQTT
AI/LLM:	Gemini, Gemma, Whisper, LLM-based evaluation, prompt engineering
Languages:	JavaScript, SQL, Python, PHP, Dart, C, C++
Tools:	Git, Postman, NPM, VsCode, Android Studio, Figma, CleverTap, OneSignal

Work Experience

Software Engineer at MadeEasy December 2024 - Current

- Built the **answer-sheet evaluation platform** from initialization to production: evaluator/reviewer RBAC, org-scoped privileges, freelancer project and payout pipelines, a collaborative PDF annotation canvas, and CSV reporting.
- Architected **DART** (Daily Assessment & Review Test) end-to-end — schema, paper generation, objective/subjective grading, Redis caching, CleverTap analytics — with **LLM-based auto-grading (Gemini/Gemma)** for marking-scheme generation and a manual-review fallback.
- Led frontend and backend for the **payments portal** (Juspay/CCAvenue/HDFC, GST-compliant PDF invoicing, EMI plans, refunds, course transfers), plus a supporting **microservice** for PDF/Excel generation of question papers and QCA booklets.
- Built an **AI**-driven video-to-notes pipeline: parallel audio extraction on video upload feeding a **Whisper** speech-to-text service over RabbitMQ, then **AI/LLM**-generated transcript chunks, notes, topic labels and tags surfaced in the admin CMS.

GSOC 2024 (Flutter, Google Earth, Python, Docker, Gemma, Gemini) May 2024 - August 2024

- Contributed to the **Liquid Galaxy project** during **Google Summer of Code 2024**, working with Flutter, Google Earth, Python, Docker, and other technologies.
- Collaborated with mentors and the Liquid Galaxy team to enhance project functionality.
- Link to **work product submission** -https://www.liquidgalaxy.eu/2024/08/work-product-submission-from-google.html

Full Stack Intern at AmazedIT (Laravel, PHP, Flutter) October 2023 - December 2023

- Developed a comprehensive **taxi service application** using Laravel for backend and Flutter for mobile frontend.
- Implemented an **admin panel in Laravel** and **Taxi Driver and Rider Applications in Flutter** integrated various technologies, including **Google API, MQTT, and OneSignal**, to enhance functionality and user experience.

Freelance (MERN, Flutter, PHP) September 2023 - Current

- Flutter Projects Like a company's internal Payment application (Frontend only) etc.
- Jewelry Brand Frontend + Backend.
- Property Selling Website Frontend + Backend.

Projects

RouteCraft - AI powered Travel Experience: Link to Repository

Tech Stack: Flutter, Gemini, Groq, Docker

- An **Generative AI** powered mobile application that creates personalized travel itinerary tailored to ones personality..
- Utilized **mixtral-7b LLM model and gemini-1.5-flash** for generating itinerary..
- Provided a centralized location for all upcoming events and facilitated effortless entry ticket purchases.

JataYu : Link to Repository

Tech Stack: React, Express, Location Services, Socket.io, Tailwind, JS, Python, Tkinter

- A dual-platform project designed for seamless collaboration between organizations and troops, featuring advanced **real-time updates, live tracking, and secure communication** with a robust technology stack .
- Engineered an app for emergency response, real-time updates, and troop tracking.
- Enhanced resource allocation, data sharing, and mapping, improving coordination by 95%.

Education

2021 - present	BTech, CSE - Data Science at **JSS Academy of Technical Education**
2020	Class 12th at **David Model Senior Secondary School, Delhi**

Achievements

2nd Place in "Design-A-Thorn" at **Global MLH Hackathon**

2nd Place in **Hackathon HackMVP at Delhi University**

2nd Place in **HackVIPS 5.0 at VIPS College**

Flipkart Grid 6.0 - Robotics Finalist

Lead Workshops on **Git, GitHub, and Flutter** at GDSC College

Research

Presented Research Paper at **RIC'24, IIT Guwahati**

- Title: **Enhancing Knowledge Retention in Children Under Six with Dyslexia**: A Deep Learning Model.
